GERVASIO RIVEIRO MARTÍNEZ

ABOUT ME

I am a graduate of the University of Social Sciences of UdeLAR, a musician, and at the same time I work in a profile focused on fullstack web development programming. My personal interest is to generate the greatest growth and learning both personally and collectively. As a main goal I have the initiative to enter the working market of programming since it has always interested me and after what I have studied I feel motivated to undertake new projects.
